Droid Serif Pro

Droid Serif Pro is a contemporary serif typeface family designed for comfortable reading on screen.

Droid Serif is slightly condensed to maximize the amount of text displayed on small screens. Vertical stress, sturdy serifs and open forms contribute to the readability of Droid Serif while its proportion and overall design complement its companion Droid Sans.

The Droid fonts were designed by Steve Matteson, the Type Director at Ascender Corporation.

Droid Serif Pro Regular includes Latin 1 and WGL character sets, along with Old Style Figures (requires an application that support advanced OpenType typographic features).

619 Oldstyle figures

These figures are designed with ascenders and descenders and have features and proportions compatible with the lowercase characters of the typeface. Included are Tabular Oldstyle figures.

0123456789

123 Proportional Lining Figures

Most fonts include lining figures that are designed to be compatible with the capital letters. Fonts with proportional lining figures include a set of lining figures that have unique widths that are determined by the shape of the figure. Proportional Lining figures are preferred when setting certain text, such as an all-capital headline.

0123456789 (Proportional Lining)

About the Designer

STEVE MATTESON is the Director of Type Design for Ascender Corporation and has created fonts for use in various screen display environments and print publishing since 1987. A graduate of Rochester Institute of Technology, Steve has an extensive background in typography, design and printing which he has applied to his development of high quality typefaces.

His work can be found in user interface designs (such as Windows Vista, Xbox 360, Zune, and Google s Android Platform); in publishing (such as Pescadero Pro, Andy and Endurance Pro); and for corporate branding (such as Symantec, Microsoft and Alcon Labs). He resides in Louisville, CO with his wife, two kids and two Labrador Retrievers.

Steve is involved with a charitable program called "Hope for Grieving Children" – an orphan counseling program started by his father Dr. Richard Matteson in Zambia, Africa. The program teaches pastors, educators and counselors how to care for the over 800,000 orphans in Zambia. The program is also expanding to provide meals and education to these children who are otherwise likely to wind up living on the streets.
